

Men's Spotlight - The Black Man's Mental Health and Wellness Journey

Acknowledging your Truths

ABOUT

The Black Action Coalition for Change (BACC) at ACCES provides leadership and insight in addressing anti-black racism. Now, during the month of November, as many are reflecting on the specific health challenges that men face, we want to engage in an important discussion about the mental health crisis in our community, and how it is disproportionately affecting Black men. We invite you to a panel event where Black male professionals will share their experiences and discuss how to identify and overcome the stigma surrounding mental health and wellness.

Date: November 23rd, 2022

Time: 3:00 - 4:30pm
